

Saarland University is a Campus university with international orientation and distinct research profile.

UNIVERSITÄT  
DES  
SAARLANDES

The Helmholtz Institute for Pharmaceutical Research Saarland (HIPS) - a branch of the Helmholtz Centre for Infection Research (HZI) in Braunschweig - devotes its drug research primarily to the discovery and pharmaceutical development of anti-infectives.

The Faculty of Natural Sciences and Technology III at Saarland University (UdS) is seeking as early as possible a

## University Professor W3 for Medicinal Chemistry

in a joint appointment procedure connected to the function of

**Department Head at the Helmholtz Institute for Pharmaceutical Research Saarland (HIPS)**

The future post holder will lead the Department of Drug Design and Optimization at the HIPS whilst simultaneously occupying the post of Professor of Medicinal Chemistry (in the Department of Pharmacy) at the UdS. He/she will make a major contribution to the active compounds research in the field of anti-infectives at the HZI and the Centre for Pharmaceutical Research at UdS.

The collaboration with partners within the transnational greater region of SaarLorLux within the framework of the "University of the Greater Region" project will be particularly supported ([www.uni-gr.eu](http://www.uni-gr.eu)).

Formal requirements include a PhD in a relevant field, an outstanding record in research as well as additional accomplishments like habilitation, junior professorship or equivalent scientific achievements.

It is expected that the successful candidate will hold proven experience at international level in the design and synthesis of active compounds and the pharmacokinetic and pharmacodynamic optimization of lead compounds.

Relevant experience in teaching students (State Examination in Pharmacy and Master programme in Active Compound Biotechnology) in Medicinal Chemistry is desired.

Please contact Prof. Dr. Rolf Müller ([Rolf.Mueller@helmholtz-hzi.de](mailto:Rolf.Mueller@helmholtz-hzi.de), +0049 681-98806-3001) for further information. Please send your application, attaching the usual documents, until **17.06.2016** to: **The Dean of the Faculty of Natural Sciences and Technology III, Prof. Dr. Ing. Dirk Bähre, Campus Bldg. C4.3, 66123 D-Saarbrücken** and to **Helmholtz Institute for Pharmaceutical Research Saarland (HIPS), David Hofmann, Administrator, University Campus E8.1, 66123 D-Saarbrücken** or send an e-mail to: **David.Hofmann@helmholtz-hzi.de**

As part of the legislation on gender equality, the UdS and the HZI wish to promote women in the workplace and for this reason expressly encourage applications from qualified women.

Given equal qualifications, handicapped applicants will be considered on a preferential basis. We also welcome applications by scientists from abroad.
